Metrology Engineer (Mechanical and Physical specialisation)

In support of the Chief Metrologist, Engineering, you will be responsible for the provision of engineering solutions within the Royal Saudi Air Force Metrology Programme, embracing a wide range of activities including the writing of calibration procedures / technical reports, determination of equipment requirements, development of computer applications, as well as the calibration and repair of complex test, measurement and diagnostic equipment.

You will have practical experience at an engineering level within the Metrology and Calibration field. You must hold a university degree or equivalent in an appropriate technical subject.

If you have the appropriate skills we are looking for and want to find out more then please send a comprehensive CV quoting Reference No: 761 to: **Tina Cookson, KSA Resourcing, BAE Systems, Mill Lane, Building W386, Warton Aerodrome, Preston, PR4 1AX**
e-mail: tina.cookson@baesystems.com

Telephone: + 44 (0)1772 854017 Fax: + 44 (0)1772 852096

We are committed to equal opportunities but, as these positions are based in Saudi Arabia, we are only able to consider male applicants.
